New Seasons In The Sun

M907 Instruction manual

NOTICE OF ASSEMBLE

Tips for assembling

- 1.Pictures shown on the package may be slightly different from the actual product.
- 2.All the materials are taken in the operation step, put the remaining materials back into the original pocket until the installation is completed.(Avoid material loss during installation)
- 3.The dimensions indicated in the step diagram are "cm".
- 4.If there have template paper material, please cut the material according to the template to avoid mistakes..
- 5.According to the part rule example at the bottom of this page, refer to the part on the part number drawing, find the material object and compare with the material list, confirm and install.(Wooden parts only)
- 6.Glue should not be applied too much, so as not to dry longer, overflow will affect the effect of the finished product.
- 7..Part shapes may differ from the photographs depending on he production batch

Testing on LED function

Be sure to test the LED lights before making the lighting, note that the LED white wire to the negative, gray wire to the positive reference to the following figure operation test.

Glue and tool are forbidden shipping by air transport, so please prepare the follow tools and glue by yourself.

How to assemble the battery holder

Statement: the lamp wires cannot be inserted into the output socket.

- - Can use 7 batteries
- - Please notice the place of anode and cathode when put in the batteries
- - Rechargeable batteries are not blunt electricity
- - Rechargeable batteries can only be charged under adult supervision
- - Rechargeable batteries should be removed from the toy before charging
- - Different types of batteries cannot mix; Do not mix new batteries in use with semi-used batteries.
- - Run out of battery should be removed from the toy
- - The power shall not be short circuit

Trim all the LED wiring to the same length.

Use a craft blade to carefully skim over the plastic to bare the copper wire. Twist the same color wire together.

Twist the following wire together:
 (I) BLACK wire from the battery box with the WHITE wire from LED bulb.
 (II) RED wire from the battery box with the GREY wire from LED bulb.

Roll and seal the duly twist copper with the white tape F24 provided.

scale 1:10
G04 Transparent cover
20*15*0.18 cm
1 piece

scale 1:10
G05 Transparent cover
20*13*0.18 cm
2 pieces

scale 1:10
G06 Transparent cover
14.64*13*0.18 cm
2 pieces

1. Tear off kraft paper of each piece of transparent cover.

2. Paste G04, G05 and G06 together to complete the dust proof cover as shown.
