DIY
DOLLHOUSE

WARNING:
 choking hazard—small parts.
 not for children under 14 years.

MADE IN CHINA

① Tweezers: for small materials, it is convenient to use tweezers

② Scissors: used to cut paper and cloth

③ Ruler: measure the material size, identify the material number

④ white latex: used for bonding of paper and wood materials, dry is slow, easy to modify

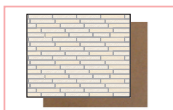

⑤ Alcohol glue / U glue: used for the bonding of wood, metal materials or small objects, dry faster, easy to stick.

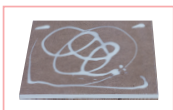

⑥ Brush: used for glue application, can sweep the glue evenly.

Paper accessories and paste method

① Take out bottom plate and corresponding paper accessories. Required tools: white latex, ruler, brush

② Apply the appropriate amount of white latex to the bottom plate.

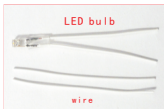

③ Apply white latex evenly with a brush

④ Align the edge of bottom plate and press paper accessory from left to right. The glue can be adjusted before it can be dried

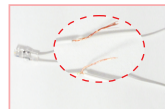

Battery box, extension cord and battery box installation method

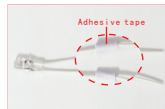

1. The bulb line extension requires two same length of power cord

2. Peel of 1cm length of rubber of the two power cords

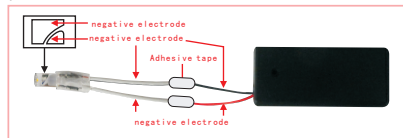

3. Wire of stripped the rubber are wrapped as shown

4. Wrap copper with adhesive tape as shown

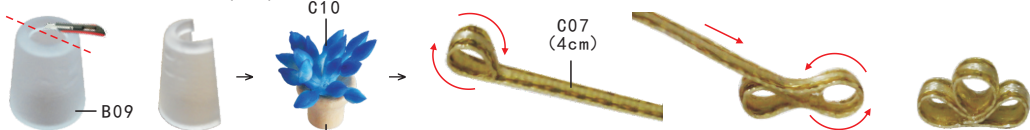

5. Put battery in the battery box Note distinguish positive and negative (self-supplied battery)

6. Connect the positive of the LED bulb to the red wire of the battery box. The negative is connected with the black wire, and the adhesive paper wrapped copper wire. Completed

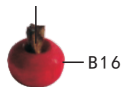

<<Finish the wall lamp / pot / ribbon knot.

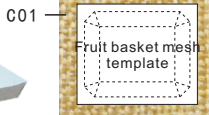

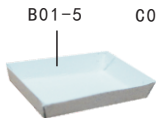

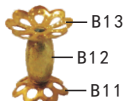

Cut B09 a half with a knife B17 Cut C07 for 4cm, Paste as show Bent paste C07 again Finished

<<Finish fruit/candle/fruit basket

C08 (0.4cm)

(5 pcs)

Cut C01 according to the template

As shown

C06

Use C01 packing B01-5

Paste as shown

<<Finish the painting/storage box.

Package

B01-12

Packing B01-12, as shown

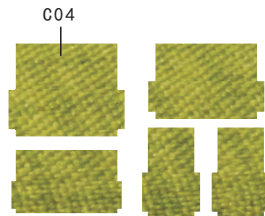

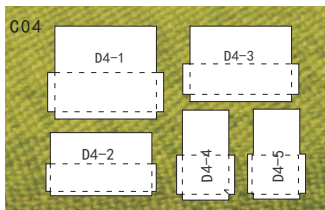

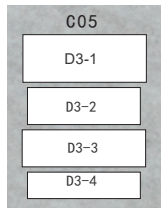

As shown

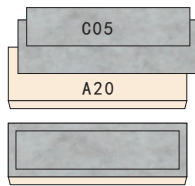

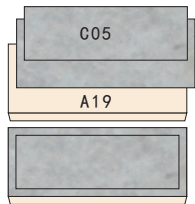

Paste as shown

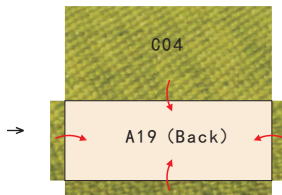

<<Finish the sofa.

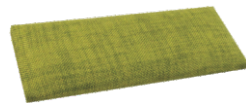

Cut C05 according to the sofa template, As shown C04 according to the sofa template As shown

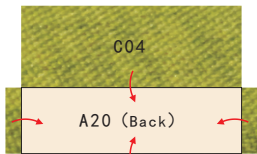

Paste the corresponding C05 on the A19/A20, As shown

Wrap the corresponding C04 on the back of the A19

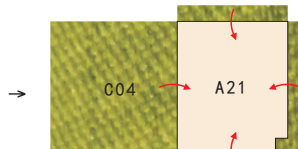

(Front)
As shown

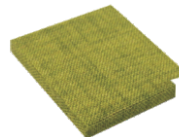

Wrap the corresponding C04 on the back of the A20

(Front)
As shown

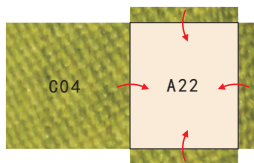

Wrap the corresponding C04 on the back of the A21

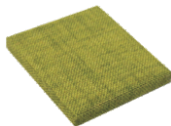

As shown

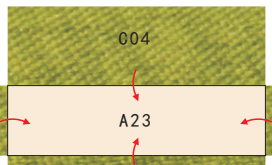

<<Finish the sofa.

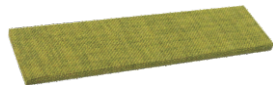

Wrap the corresponding C04 on the back of the A22

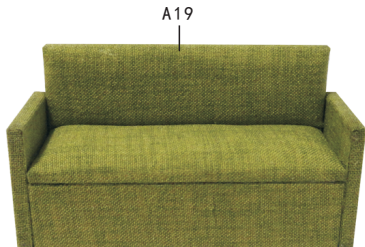

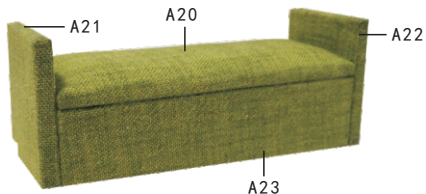

As shown

Wrap the corresponding C04 on the back of the A23

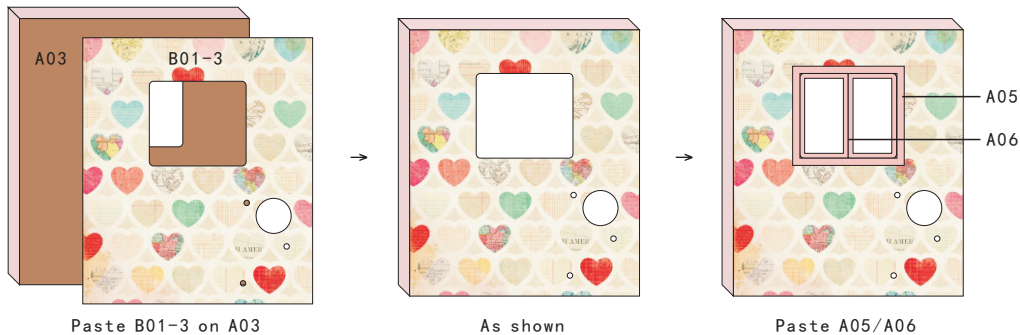

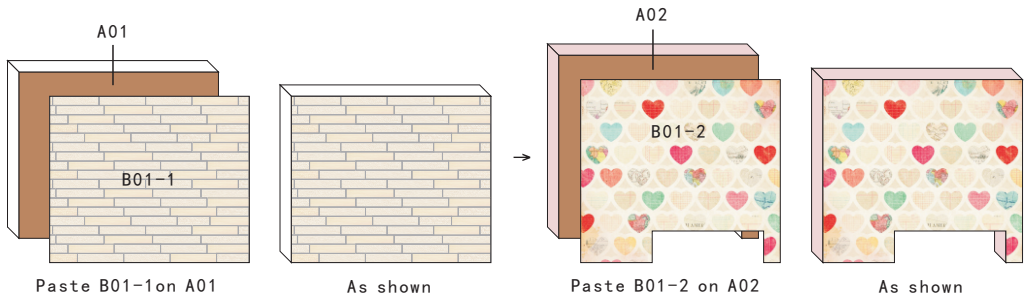

As shown

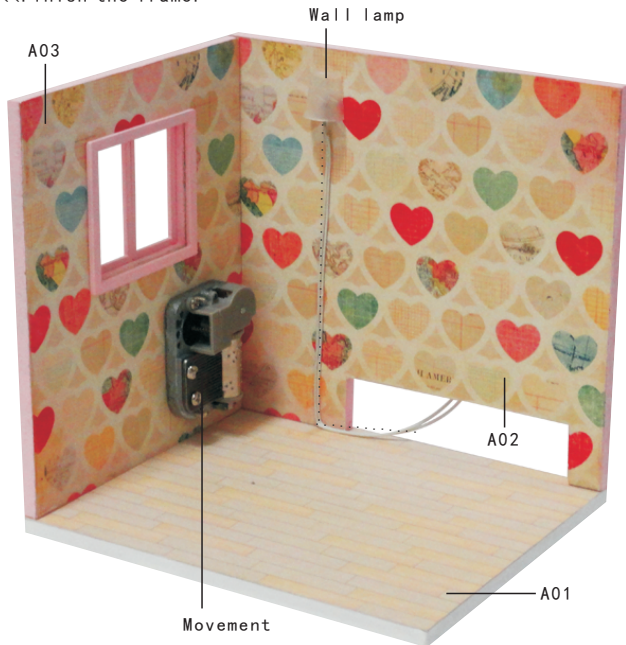

Paste as shown

<<Paste the paper accessories.

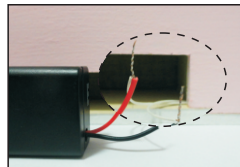

<<Finish the frame.

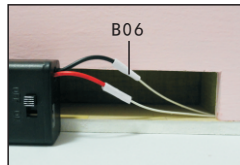

Paste A01/A02/A03/wall lamp/movement as shown
(Note: the black dotted line indicates direction of wire)

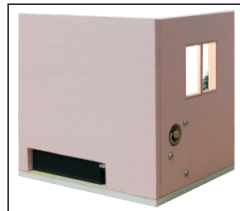

<<Install the battery case.

Put (negative) wire and battery box
(negative) wire Wrapped together,
(positive) Wire and battery box
(positive) wire Wrapped together

As shown , use B06 to wrap the wires

As shown, put battery box in panel square hole
