

Life Long Love

PC2011

NOTICE OF ASSEMBLE

Tips for assembling

1. Pictures shown on the package may be slightly different from the actual product.
2. All the materials are taken in the operation step, put the remaining materials back into the original pocket until the installation is completed. (Avoid material loss during installation)
3. The dimensions indicated in the step diagram are "cm".
4. If there have template paper material, please cut the material according to the template to avoid mistakes..
5. According to the part rule example at the bottom of this page, refer to the part on the part number drawing, find the material object and compare with the material list, confirm and install. (Wooden parts only)
6. Glue should not be applied too much, so as not to dry longer, overflow will affect the effect of the finished product.
7. Part shapes may differ from the photographs depending on the production batch

Testing on LED function

Be sure to test the LED lights before making the lighting, note that the LED white wire to the negative, gray wire to the positive reference to the following figure operation test.

1 DO NOT contact the LED wire end direct to the battery cell.

2 Use the provide battery holder. Make sure the correct polarity.

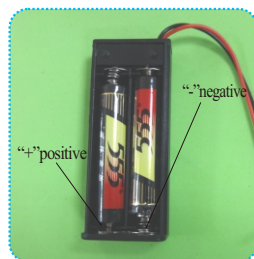

How to assemble the battery holder

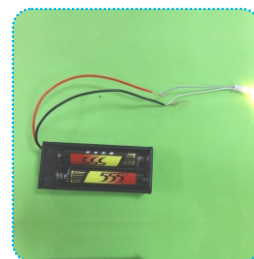

1. Material and tools needed:
- Battery holder, LED bulb,
tape, screw driver and 2 piece
AAA size battery (not provided)

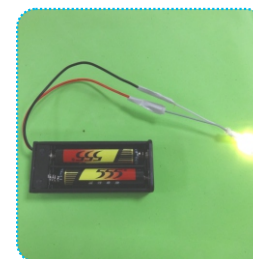

2. Use screw driver and
take the lid off from the
battery holder.

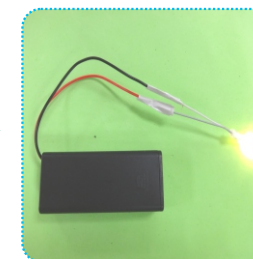

3. Insert the battery and
take notes on the polarity.

4. Connect the red wire
to grey wire. Connect
the black wire to white
wire.

5. Wrap the exposed wire
with the tapes.

6. Place the box lid and
fasten with screw driver.

Examples of parts rule:

A01: The parts are directly in the box; B01: The parts are in the B bag; C01: The parts are in the C bag, and so on (Note: The printing paper is displayed in the step A08-01 and A09-1: The printing paper is placed directly in the box, The part number is A08-01 and A09-1)

About the use of glue

Method for using glue:

1. After applying the glue, let it dry for a few seconds before pasting.
2. Fix it slightly with your hands, and finally put it aside to dry;

Tips:

When pasting the plane printing paper, a piece of waste bank card or telephone card can be used to wipe evenly after the glue is smeared on the wood board, and then the printing paper is pasted to squeeze out the air inside.

Types of glue:

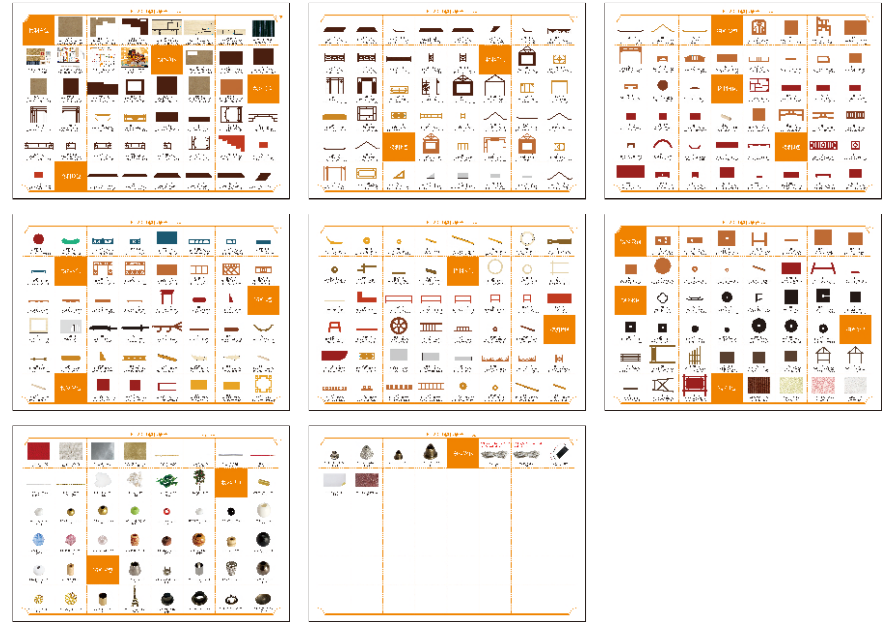

White latex: Used for adhering soft materials, such as wood and paper.
Alcoholic Glue: Used for adhering hard materials such as cloth, plastic, beads, wire, dust cover, etc.

How to assemble the battery holder

Statement: the lamp wires cannot be inserted into the output socket.

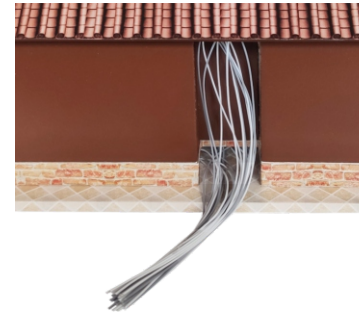

- Can use 2*AAA batteries
- Please notice the place of anode and cathode when put in the batteries
- Rechargeable batteries are not blunt electricity
- Rechargeable batteries can only be charged under adult supervision
- Rechargeable batteries should be removed from the toy before charging
- Different types of batteries cannot mix; Do not mix new batteries in use with semi-used batteries.
- Run out of battery should be removed from the toy
- The power shall not be short circuit

1

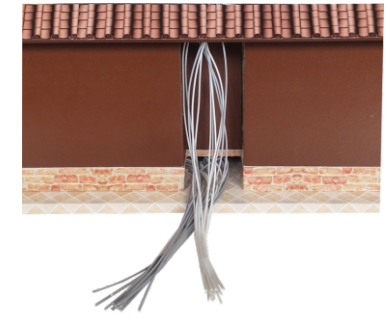

Concentrate all the light wires to the back

2

cut all the LED light wires to the same length

3

Distinguish the light lines of the same color

4

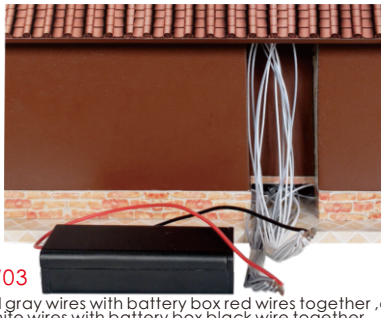

peel off the film of the LED light wires

5

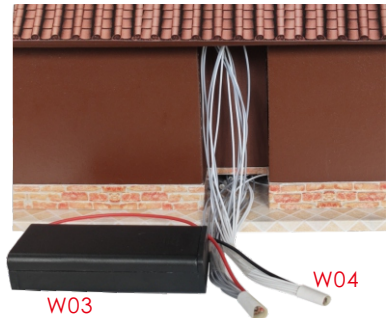

Twist the light wires together

6

W03
Put all gray wires with battery box red wires together, and put all white wires with battery box black wire together. Wrap the bare wires with adhesive tape P04. Make sure the LED lights are on.

7

W03
W04
Wrap the light wire connection with W04.

8

Tuck in the light cord.

9

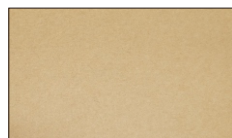

Put the battery compartment in.

Installation of dust cover

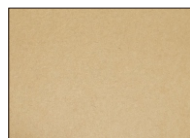

dust cover
(Upgrade version accessories need to be purchased separately)

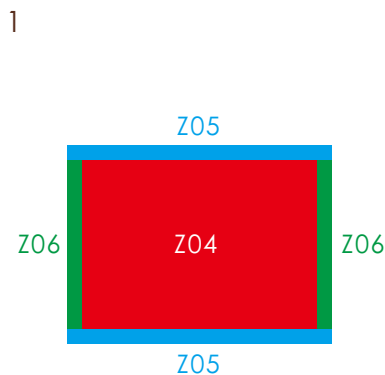

scale:1:12
Z04 plexiglass(transparent)
35.8*29.2*0.18(1 piece)

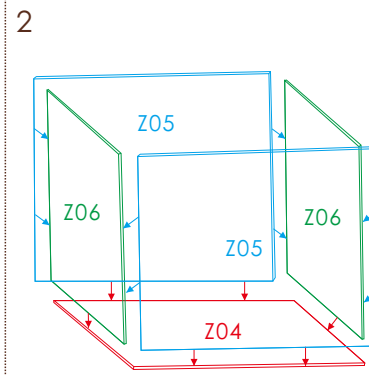

scale:1:12
Z05 plexiglass(transparent)
35.8*21*0.18(2 pieces)

scale:1:12
Z06 plexiglass(transparent)
28.84*21*0.18(2 pieces)

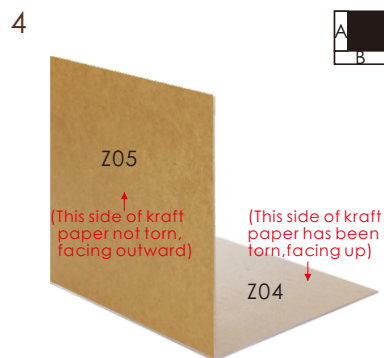

stick Z05 and Z06 on Z04.

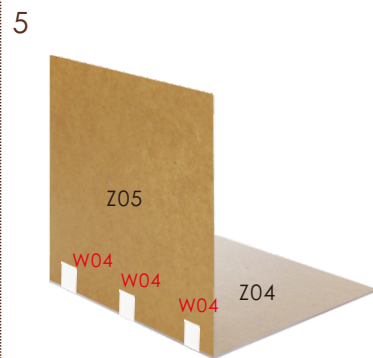

stick five pieces of plexiglass dust cover as shown

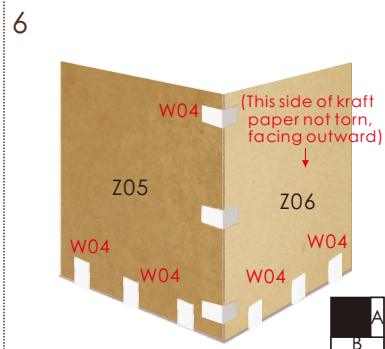

Take out the plexiglass and tear off the kraft paper with text on each piece of plexiglass

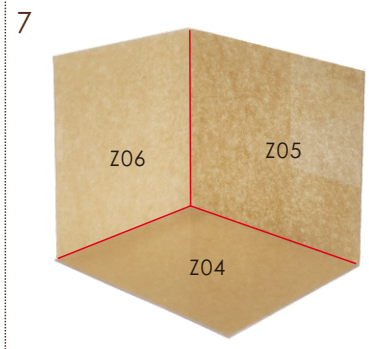

The kraft paper that has been ripped off faces inwards, and the kraft paper that has not been ripped out faces outwards.

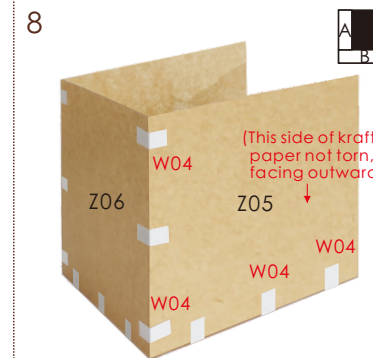

Use W04 to fix the junction of two pieces of plexiglass. (use transparent tape to replace W04)

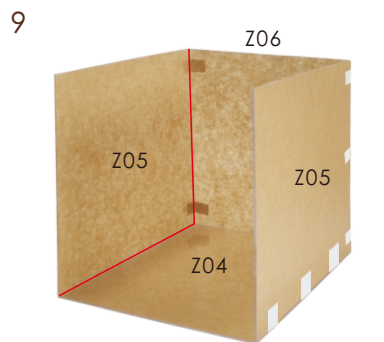

The junction of every two pieces of plexiglass needs to be fixed with P04 (to prevent the plexiglass falling off)

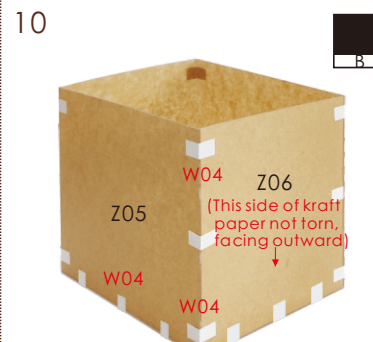

stick appropriate amount of glue to the interface of the two pieces of glass and scrape it slightly to make the glue penetrate into the junction of the two pieces of glass (the red line is the plexiglass interface)

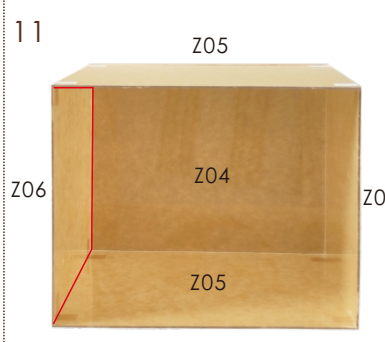

The junction of two pieces of plexiglass needs to be fixed with W04 (to prevent the plexiglass falling off)

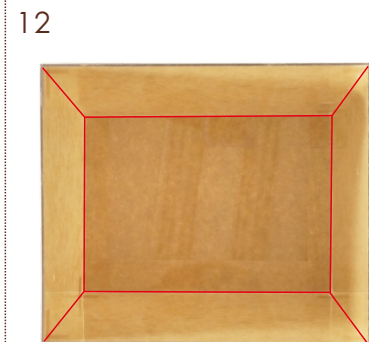

stick appropriate amount of glue to the interface of the two pieces of glass and scrape it slightly to make the glue penetrate into the junction of the two pieces of glass (the red line is the plexiglass interface)

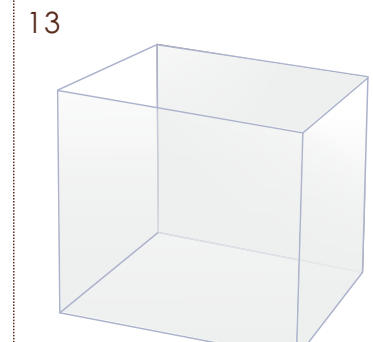

The junction of two pieces of plexiglass needs to be fixed with W04 (to prevent the plexiglass falling off)

stick appropriate amount of glue to the interface of the two pieces of glass and scrape it slightly to make the glue penetrate into the junction of the two pieces of glass (the red line is the plexiglass interface)

the dust cover need to be glued 8 interfaces

Leave it for 1 hour. After the glue dries out, tear off a layer of kraft paper outside the plexiglass

Detail Appreciation

With dust cover at night

The instruction manual should be keep, after assembled
